

Besufikad K/Mariyam aka Klaus

Addis Ababa, Ethiopia, +251903195403, klauscreations12@gmail.com

Hello, I'm Besufiad K/Mariyam – a Senior Full-Stack Software Engineer and AI Agents Engineer based in Ethiopia, with over 2 years of hands-on experience delivering real-world projects.

Why choose me:

- I thrive under challenging project deadlines and consistently deliver on time.
- I prioritize high-quality work and maintain strong attention to detail.
- I am flexible to work both onsite and remotely.
- I enjoy building robust, scalable, and user-friendly solutions.

With my experience, I am confident in delivering projects of any scale with top-notch quality.

Check out my work: [Portfolio](#)

Explore my code and projects: [GitHub](#)

Currently, I am focused on learning and building advanced infrastructure and systems for developers and end-users, pushing the boundaries of what modern applications can achieve.

Education

Adama Science and Technology University

Bachelor in Computer Science and Engineering

Adama, Ethiopia

2022 - 2025

Experience

FULL-STACK DEVELOPER

ABYSSINIA TECHNOLOGIES

Building and maintaining scalable web applications with an emphasis on performance, stability, and intuitive user experiences. Working closely with cross-functional teams to deliver new features, resolve technical issues, and continuously improve existing systems.

Addis Ababa, Ethiopia
August 2023 - April 2024

BACKEND ENGINEER

NILE TECHNOLOGIES

Designed and developed scalable backend services using Node.js and REST APIs, focusing on performance, security, and maintainability. Implemented database schemas, authentication flows, and API integrations while collaborating with frontend developers to deliver full-featured applications.
